👤 Profile

Software Developer student at Windesheim University of Applied Sciences, skilled in front-end and back-end development with PHP, C#, Laravel, HTML/CSS, and SQL. Expanded expertise in Python, React, and JavaScript during a second-year internship at DIKW, contributing to an Azure-based sales optimization application with a focus on security, GUI, and back-end enhancements. Driven to grow as a versatile developer, solve challenging problems, and create impactful software solutions.

🧰 Professional Experience

Sep 2024 – present
Nieuwegein, Netherlands

DIKW

Intern/Developer for Sales Performance Optimization

- Focused on improving security features and streamlining application management for better efficiency.
- Designed and implemented an algorithm to prevent overload during website scraping.
